

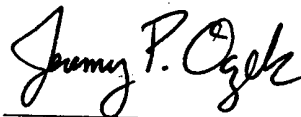

Figure 2B has been amended to change the labeling of the epoxy layer, previously represented by reference number 112, to reference number 116. Support for this modification is found in the specification at, for example, page 16, line 2.

As each correction is fully supported by the written description, no new matter has been added by the amendments to Figure 2B. Copies of the amended drawings are enclosed herewith.

Applicants respectfully request approval of these changes.

Respectfully submitted,

---
